

A City No Longer Forsaken

1

D **G D**
How can we stay silent

A
When the noise of praise has gone?

D **G D**
Our tongues can't dare keep quiet

G **D** **A** **D**
Til His Righteousness shines like the dawn

How can we grow tired
When his return is nigh?
The skyline will burn bright again
Like a diadem on the crown of Christ

G **D**
A brand new name,
G **D**
Straight from the mouth of God,
G **D** **A**
The orphaned ones now take
 G **D/F#** **A** **Bm**
Through the waning years He preserves His own
 G **D/F#** **A** **D**
In a City No Longer forsaken

How can we not clear the way
With such open grace ?
How can we withhold our prayers
To the God who spares all who His seek His face?

A City No Longer Forsaken

A brand new land
Tilled by his tender hand
the thorns and thistles break
From the desert sand the harvest comes
In a city no longer forsaken

Instrumental: Em – F#m – G – A (x2)

Unbend the road, the Savior rides!
Send up the signal high
Over the gravel waste, His highway runs
In a city no longer forsaken

Every door will be stained with Salvation's name
In a City no Longer Forsaken
